

DRMT has a new logo!!

As this year was the Dungeness River Management Team's 20th Anniversary, we felt it was about time the DRMT had an official logo. So, at the beginning of the year we invited Sequim's 4th and 5th graders to participate in an art contest to help us design such a logo. We received a total of 33 entrants from students of Five Acres and Helen Haller elementary schools. The DRMT was delighted to see the student's creativity in forming an image of what the Dungeness River and Watershed means to them. We selected three of the design entries to form the basis for the official logo, and presented them at the DRMT's 20th Anniversary Celebration on June 11, 2008.

Since the Anniversary Celebration, the designs have been combined into a single logo, which was approved by DRMT at their September monthly meeting. The Team is pleased to unveil the official DRMT logo, which graphically depicts the Team's vision for our watershed:

Forests, Farms, Fish and Friends
Sharing a Home Together

Special thanks to Five Acres Elementary, Helen Haller Elementary, In Graphic Detail, LLC, and Randy Johnson for contributing to the final approved logo.
