

Hatch Mount Freezer Systems

**Configured to
Fit Your Hatch**

**Easy Connections to
Power & Condenser Water**

**Hydraulic & Electric
Models Available**

Make Freezing Onboard Easy!

Simply mounts in the hatch cover. Plug in power and condenser water, and you're ready to freeze your catch onboard.

Specialty markets pay top price for high-quality frozen-at-sea products. Ideal for cod, salmon, prawns, rockfish, and many other species.

Drop the unit in when you want to freeze; lift it out for seining, gillnetting, and other wet-hold fisheries.

Call for a free consultation. We're happy to tell you how IMS products can help maximize your profits this season and in the future.
